working languages in the network

WHAT GRC CAN DELIVER

- Household, farmer, enterprise, institutional and service-user surveys.
- CAPI implementation using SurveyCTO, KoboToolbox, ODK or client systems.
- FGDs, KIIs, IDIs, observation, MSC and mixed-methods fieldwork.
- Questionnaire localisation, translation/back-translation, piloting and training.
- Enumerator recruitment, supervision, GPS checks, back-checks and daily QA.
- Transcription, translation, data cleaning, statistical/qualitative analysis and country reporting.

WHY INTERNATIONAL PARTNERS USE GRC

- Named Ethiopia leadership across technical design, field operations, data quality and qualitative research.
- Field network of 250+ enumerators with coverage across all 12 regions and both city administrations.
- Experience in rural, pastoralist, drought-affected, conflict-sensitive and operationally difficult settings.
- Multidisciplinary research, evaluation, MEL, data, strategy and organisational-development capability.
- For sufficiently defined scopes, GRC often produces an initial quotation within 24 hours.
